Nothing says I love you like Progress Reports! Look for them to come home this Wednesday 2/14. Students will have around 3 ½ weeks after they go out to make changes happen. The last day of quarter 3 is March 8th. Remember that each quarter is 50% of the semester grade that determines both credit and cumulative GPA.

Helpful Information for Valentine's Day deliveries for OHSFC students: Please be mindful that some of our students are not here on this campus at the end of the day. Please verify the location of your students 6th period class if having items delivered or dropped off. No items will be shared until the end of the day. To ensure necessary time to organize, notify, and schedule student pick up of items prior to the end of the day please have all items dropped off by 11:00 am (either campus). Please remember that glass containers and balloons are not allowed on school buses.

Time is running short to purchase the award winning OHS yearbook for this year at the discounted price of \$50. Use this link to order now and ensure you have a copy when they arrive in May: [OHS Yearbook](#)

Now is the time of year to start thinking about next year! We are almost half way through this quarter and the time once we past Spring Break will go quickly. If your student is interested in starting Dual Enrollment next year, the first step here are some next steps for right now. First, plan to attend an IRSC Dual Enrollment Session on Tuesday, February 13th at 6 pm here in Okeechobee on our Dixon Hendry Campus. [Click here for the flyer with the code to sign up to attend.](#) Next, IRSC is offering a first time testers a FREE chance to take the test on Monday, February 19th (holiday for us – no school). College ready scores for PERT are required to sign up for dual enrollment classes. The first 40 testers will receive a \$20 gift card. [Click here for more info!](#) Then, have your student chat with the IRSC advisors here on our campus during lunch on Tuesday, February 20th.

We should have more information soon about student's scheduling classes for next year. This process usually starts in March Students will have 4 core academic classes next year and 3 periods for electives. In the m have some conversations about what elective classes your student has taken this year and what they might be interested in continuing next year. Band, Art, and Career and Technical classes like Ag, Construction, Auto, Digital Information Technology for 9th graders are foundational and upon successful completion students can continue on in those programs next year. Or if your student wanted to take a CTE course and didn't get the chance, they can start one next year. [Click here to access information](#) about the CTE Programs offered at OHS.

Spring Sports are underway fully in the next couple of weeks. Come out and support our Brahman in tennis, lacrosse, softball, and baseball during this great spring weather!
